CELL CALCIUM

# Volume 16 Contents

Number 1 July 1994

**Calreticulin – a stress protein induced in the renal epithelial cell line NBL-1 by amino acid deprivation** 1
*S. Plakidou-Dymock and J.D. McGivan*

**A membrane potential model with counterions for cytosolic calcium oscillations** 9
*M.S. Jafri and B. Gillo*

**Independent external calcium entry and cellular calcium mobilization in *Xenopus* oocytes** 20
*M. Lupu-Meiri, D. Lipinsky, S. Ozaki, Y. Watanabe and Y. Oron*

**Cytosolic calcium elevation in response to Fc receptor cross-linking in undifferentiated and differentiated U937 cells** 29
*W. Davis, S.O. Sage and J.M. Allen*

**Calcium and melatonin production in dissociated trout pineal photoreceptor cells in culture** 37
*V. Bégay, P. Bois, J.P. Collin, J. Lenfant and J. Falcón*

**The effects of a chemically diverse range of calcium channel antagonists on the AVP- stimulated ACTH response in ovine corticotrophs** 47
*A.P. Le Beau and D.R. Mason*

Number 2 August 1994

**Bradykinin-stimulated calcium mobilization in cultured canine tracheal smooth muscle cells** 59
*C.M. Yang, H-C. Hsia, J-T Hsieh, R. Ong and S-F. Luo*

**$Ca^{2+}$ stores in insulin-secreting cells: lack of effect of cADP ribose** 71
*G.A. Rutter, J-M Theler, G. Li and C.B. Wollheim*

**Effect of short and long term streptozotocin diabetes on smooth muscle calmodulin levels in the rat** 81
*Y. Öztürk, S. Aydin, V.M. Altan, N. Yildizoğlu-ari and A.T. Özçelikay*

**Intracellular $Ca^{2+}$ transients in isolated perfused rat heart: measurement using the fluorescent indicator Fura–2/AM** 87
*M.L. Field, A. Azzawi, P. Styles, C. Henderson, A-M.L. Seymour and G.K. Radda*

**Calcium-sequestering organelles of *Dictyostelium discoideum*: changes in element content during early development as measured by electron probe X-ray microanalysis** 101
*C. Schlatterer, S. Buravkov, K. Zierold and G. Knoll*

**Activation of phosphoinositide metabolism by parathyroid hormone in growth plate chondrocytes** 112
*M.J. Zuscik, T.E. Gunter, R.N. Rosier, K.K. Gunter and J.E. Puzas*

**Measurement of sarcoplasmic reticulum calcium content in skinned mammalian cardiac muscle** 123
*M. Kawai and M. Konishi*

**Activation of calcium and calmodulin dependent protein kinase II during stimulation of insulin secretion** 137
*L.L. Norling, J.R. Colca, P.T. Kelly, M.L. McDaniel and M. Landt*

Number 3 September 1994

**Theoretical analysis of calcium wave propagation based on inositol (1,4,5)-trisphosphate ($InsP_3$) receptor functional properties** 151
*I. Bezprozvanny*

**Cytosolic free calcium concentration in the mitogenic stimulation of T lymphocytes by anti-CD3 monoclonal antibodies** 167
*M. Murgia, M. Mion, L. Veronese, M. Panozzo, V. Coppola, R. Rizzuto, M. Brini, F. Malavasi, A. Amadori, L. Chieco Bianchi and T. Pozzan*

**Differential effects of carbachol on calcium entry and release in CHO cells expressing the m3 muscarinic receptor** 181
*J.L. Edelman, M. Kajimura, E. Woldemussie and G. Sachs*

**5-Hydroxytryptamine-stimulated calcium mobilization in cultured canine tracheal smooth muscle cells** 194
*C.M. Yang, J-T. Hsieh, Y-L. Yo, R. Ong and H-L. Tsao*

**A UV laser-scanning confocal microscope for the measurement of intracellular $Ca^{2+}$** 205
*K. Kuba, S-Y. Hua and T. Hayashi*

**Intracellular calcium transients in potentiated contractions induced by multiple extrasystolic beats in isolated perfused rat hearts** 219
*S. Kojima, S.T. Wu, J. Wikman-Coffelt and W.W. Parmley*

**Extracellular ATP activates calcium entry and mobilization via $P_{2U}$-purinoceptors in rat lactotrophs** 227
*M.A. Carew, M-L. Wu, G.J. Law, Y-Z. Tseng and W.T. Mason*

Number 4 October 1994

CALCIUM AND THE NUCLEUS

Collected papers and reviews — Edited by J.B. Hoek and A.P. Thomas

**Preface** 237
*J.B. Hoek and A.P. Thomas*

**Relationship between $[Ca^{2+}]$ changes in nucleus and cytosol** 239
*B. Himpens, H. De Smedt and R. Casteels*

**Propagation of cytosolic calcium waves into the nuclei of hepatocytes** 247
*C. Lin, G. Hajnóczky and A.P. Thomas*

**Nuclear targeting of aequorin: A new approach for measuring nuclear $Ca^{2+}$ concentration in intact cells** 259
*M. Brini, R. Marsault, C. Bastianutto, T. Pozzan and R. Rizzuto*

**Calcium signals in and around the nucleus in sea urchin eggs** 269
*I. Gillot and M. Whitaker*

**Nuclear calcium transport and the role of calcium in apoptosis** 279
*P. Nicotera, B. Zhivotovsky and S. Orrenius*

**Calmodulin and calmodulin-binding proteins in the nucleus** 289
*O. Bachs, N. Agell and E. Carafoli*

**The nuclear phosphoinositide cycle – does it play a role in nuclear $Ca^{2+}$ homoeostasis?** 297
*N. Divecha, H. Banfić and R.F. Irvine*

**The nuclear inositol 1,4,5-trisphosphate and inositol 1,3,4,5-tetrakisphosphate receptors** 301
*A.N. Malviya*

**A new role for $IP_3$ receptors: $Ca^{2+}$ release during nuclear vesicle fusion** 314
*K.M.C. Sullivan and K.L. Wilson*

**The role of calcium in cell division** 322
*P.K. Hepler*

**Calcium regulation of immediate-early response genes** 331
*E. Roche and M. Prentki*

Number 5 November 1994

**MEETING REPORT**

**Calcium-binding proteins in normal and transformed cells** 339
*R.J.P. Williams*

**BOOK REVIEW**

**A practical guide to the study of calcium in living cells** 347
**Edited by R. Nuccitelli**
*Austin Elliott*

**Altered sarcolemmal calcium channel density and $Ca^{2+}$-pump ATPase activity in tachycardia heart failure** 349
*J.T. Colston, P. Kumar, J.P. Chambers and G.L. Freeman*

**Evolution of the $Ca^{2+}$ current during dialysis of isolated bovine chromaffin cells: effect of internal calcium** 357
*A. Elhamdani, J-L. Bossu and A. Feltz*

**Calcium entry activated by store depletion in human umbilical vein endothelial cells** 367
*M. Oike, M. Gericke, G. Droogmans and B. Nilius*

**Lanthanum can be transported by the sodium- calcium exchange pathway and directly triggers catecholamine release from bovine chromaffin cells** 377
*D.A. Powis, C.L. Clark and K.J. O'Brien*

**The initiation of a calcium signal in *Xenopus* oocytes** 391
*C.C.H. Petersen and G. Dupont*

**Reduced $PO_2$ alters the behavior of Fura–2 and Indo–1 in bovine pulmonary artery endothelial cells** 404
*T. Stevens, B. Fouty, D. Cornfield and D.M. Rodman*

**The imidazole antimycotics econazole and miconazole reduce agonist-evoked protein- tyrosine phosphorylation and evoke membrane depolarisation in human platelets: cautions for their use in studying $Ca^{2+}$ signalling pathways** 413
*P. Sargeant, R.W. Farndale and S.O. Sage*

**Delay in granular fusion evoked by repetitive cytosolic $Ca^{2+}$ spikes in mouse pancreatic acinar cells** 419
*Y. Maruyama and O.H. Petersen*

Number 6 December 1994

**Introduction of high molecular weight (IgG) proteins into receptor coupled, permeabilized smooth muscle** 431
*K. Iizuka, M. Ikebe, A.V. Somlyo and A.P. Somlyo*

**Protein kinase C regulates calmodulin expression in NRK cells activated to proliferate from quiescence** 446
*M. Bosch, A. López-Girona, O. Bachs and N. Agell*

**Delayed activation of plasma membrane $Ca^{2+}$ pump in human neutrophils** 455
*O. Scharff and B. Foder*

**Intracellular calcium signaling induced by thapsigargin in excitable and inexcitable cells** 467
*S. Razani-Boroujerdi, L.D. Partridge, and M.L. Sopori*

**Rise in cytoplasmic $Ca^{2+}$ induced by monensin in bovine medullary chromaffin cells** 475
*V. Nassar-Gentina, E. Rojas and M. Luxoro*

**Erythropoietin modulation of intracellular calcium: a role for tyrosine phosphorylation** 481
*B.A. Miller, L.L. Bell, C.J. Lynch and J.Y. Cheung*

**Rapid synchrony of nuclear and cytosolic $Ca^{2+}$ signals activated by muscarinic stimulation in the human tumour line TE671/RD** 491
*S. Giovannardi, P. Cesare and A. Peres*

**Intracellular calcium handling in isolated ventricular myocytes from cardiomyopathic hamsters (strain BIO 14.6) with congestive heart failure** 500
*C. Krüger, E. Erdmann, M. Näbauer and D. J. Beuckelmann*

**Characterisation of an intracellular $Ca^{2+}$ pump in *Dictyostelium*** 509
*E.K. Rooney, J.D. Gross and M. Satre*

**ERRATUM**

**The nuclear inositol 1,4,5-trisphosphate and inositol 1,3,4,5-tetrakisphosphate receptors** 522
*A.N. Malviya*
Cell Calcium 1994, 16, 301–313

**Subject Index to Volume 16** 523

**Author Index to Volume 16** 527
